Two of the Crew Drowned.

Highland Light, Mass., Feb. 19.—The barge Girard, coal laden, went ashore near the Highland Light life-saving station and two of her crew were drowned. Captain Larsen and another member of the crew were saved by the lifesavers. The barge will be a total loss.

TELEGRAPHIC BREVITIES.

Secretary Shaw has left Washington for Chicago, where he will address the Inter Denominational union.

Mrs. Bertha Bauduay, a handsome woman of twenty-eight years, committed suicide in her apartment in New York City by shooting.

Warren G. Stearns, twenty-three years old, a member of the junior class at Macalester college, died at St. Joseph's hospital, St. Paul, probably from ptomaine poisoning.

The Northwestern Saengerbund, consisting of German singing societies in all the Northwestern states, has fixed the dates of the next triennial saengerfest at La Crosse, Wis., on July 23, 24, 25 and 26, 1908.

A Rash Speech.

The Widower—I've always said that if I married again I should choose a girl who is as good as she is beautiful. Miss Willing—Really, this is very sudden, George, but I accept you, of course.—Pick-Me-Up.

WHICH WOULD YOU RATHER DO WHEN THE SNOW GOES OFF?

Repair your shoes and walk about,
Or ride a wheel and be in style,
And pass the walker with a smile

Just time and wear,
Saves few cents to spare,
To buy a wheel and make repair.

E. J. ROHNE,

719 Laurel Street, between Seventh and Eighth Streets.

THAW'S OWN STORY

WITNESS REPEATS DEFENDANT'S
STORY OF THE KILLING OF
STANFORD WHITE.

WAS AN ACT OF PROVIDENCE

PRISONER DECLARED THAT HE
NEVER WANTED TO SHOOT
THE ARCHITECT.

New York, Feb. 19.—"I never wanted to shoot the creature. I never wanted to kill him. I knew he was a foul creature, destroying the mothers and daughters of America, but I wanted through legal means to bring him to trial. I wanted to get him into court—to bring him to justice. But Providence took charge of it; it was an act of Providence."

This is Harry K. Thaw's own story of the killing of Stanford White. It was told by him to Dr. Britton D. Evans, the alienist, last August in the Tombs. Dr. Evans repeated the prisoner's words to the jury which is trying Thaw for his life.

District Attorney Jerome fought hard last week against the introduction of this evidence, which the defense believes is conclusive proof that Thaw did not know that his act was wrong. Once the testifying physicians had declared that in their opinion Thaw was insane at the time he made the statements to them, the rules of evidence permitted the introduction of the prisoner's words.

In further bulwarking their contention that Thaw was insane when he killed Stanford White, the defendant's counsel succeeded in placing before the jury the will executed by Thaw the night of his marriage in April, 1905, and a codicil to the will executed at the same time.

Jerome's Significant Action.

Again Mr. Jerome fought the evidence, but he significantly withdrew his objections after Mr. Evans had given it as his expert opinion that Thaw was insane at the time he executed the will. The fact that the district attorney seems disposed to let in testimony of every character provided there is a preliminary opinion from the witness that the man was of unsound mind at the time to which the testimony refers, was taken as further indicating that Mr. Jerome may at the psychological moment, if he deems his hand strong enough, demand the appointment of a commission to pass upon Thaw's state of mind at the present moment.

The will and codicil, as read to the jury, were offered in evidence as cumulative testimony of Thaw's mental unsoundness prior to the killing of White. In his will Thaw provided that his executors should set apart the sum of \$50,000 for the investigation of his death in case of a violent or suspicious end, and for the prosecution of the persons suspected of having had a hand in his taking off. In the codicil Thaw left to a lawyer in Pittsburg the sum of \$7,500 to be used in securing legal redress from Stanford White and one other person, whose name was not allowed to be read, for the benefit of four young women who, Thaw declared, had been the victims of "degrading assaults" in a house "furnished and used for orgies by Stanford White and other inhuman scoundrels." The names of the four young women were mentioned by Thaw, but were not made public. Thaw also bequeathed sums of \$2,500 each to the Rev. Dr. Charles H. Parkhurst, Anthony Comstock and a lawyer named in his codicil to be used in discovering further misdeeds by Stanford White and securing redress for the women.

Improvement in Thaw's Condition.

Two other physicians will next take the stand, Doctors Hammond and Jelliffe, and it is said that it will be part of their function to detail the improvement in Thaw's mental condition

during the period of his confinement in the Tombs, declaring that the stress which caused the mental explosion was removed with the putting away of Stanford White. It is also said that Mrs. Evelyn Nesbit Thaw might go on the stand in the afternoon to complete her story.

The trial has now entered its fifth week. The opening of court found Attorney Delmas again in his accustomed place at the head of Thaw's counsel table. During the day there was no surface indication of the storm which it is said raged among counsel for the defense during the latter part of last week after the trial had been adjourned because of the death of Juror Bolton's wife. Mr. Bolton was early at the criminal courts building and said that he felt perfectly able to go on with the trial. It was decided that the jurors should not again be confined until they finally retire to make up their verdict.

Dr. Evans, who has been by far the most important witness for the defense among the medical experts, detailed at great length his conversations with Thaw in the Tombs. He told of how Thaw declared that his lawyers and physicians were in a conspiracy with the district attorney to "railroad" him off to an asylum and to prevent his case from coming to trial. He declared that "they wanted to close this matter up." Thaw told the physician that in his attempts to bring Stanford White to justice he had complained to District Attorney Jerome, and that the latter had told him to let the matter drop; that there was nothing to it. He also complained to Anthony Comstock and to a detective agency.

Dr. Evans was corroborated as to most of Thaw's statements by Dr. Charles G. Wagner of Binghamton, who first figured as a witness early last week.

Late in the afternoon District Attorney Jerome cross-examined Dr. Evans briefly on the one point of his opinion that Thaw was of unsound mind at the time of executing his will. The prosecutor and witness flashed fire at the first contact and there was every indication that when Mr. Jerome undertook Dr. Evans' cross-examination in general the proceedings would be as lively and interesting as any ever heard in a local courtroom. Dr. Evans met the preliminary attacks boldly, and seemed as ready with his wit as the district attorney. This was illustrated when Mr. Jerome, in a tone of aggravation, asked the witness:

"Well, what can you say?"
"There are many things I could say, but I am not permitted to say them," retorted the physician, amid laughter.

Mr. Delmas was on his feet during every bit of Mr. Jerome's cross-questioning of the witness. He interposed many objections and generally was sustained. He looked sharply at Dr. Evans' interest, but the latter appeared to be well aware of his privileges.

Mr. Jerome, in protesting against admitting the codicil as evidence, referred to "these scandalous statements." Mr. Delmas objected and had his objection noted as being due to the district attorney's misconduct. A wordy conflict ensued, which ended by Mr. Jerome declaring that in future he would concede nothing.

HELD AS WITNESSES.

Four Persons Under Arrest in Connection With Murder Case.

New York, Feb. 19.—Three women and an old colored man, all employed as servants in the Wallau house at 68 East Eighty-third street, were taken before Coroner Acritelli and held in \$1,000 bail each as witnesses for the inquest into Mrs. Binge's death next Wednesday. Mrs. Wallau was arrested on suspicion of having poisoned Mrs. Binge, her mother.

Mrs. Wallau broke down and wept as she made a statement of her case to her counsel, David Bandler.

"I'm not guilty of this, I'm not guilty," Mrs. Wallau repeated between her sobs. "There could be no motive for my doing anything that is charged, as any one who knows our circumstances can prove."

Mrs. Wallau declared the stories told by the nurses were false. Mr. Bandler also told of the lack of motive in the case, saying that his client was in full control of the estate under an agreement made some years ago.

Fruit Instead of Flowers on Tables.

Florists are having a rather bad time of it just now and are complaining that fruit as a table decoration has again been made "smart" by women who refuse to admit that it isn't a new idea, says the New York Press. Mrs. Stuyvesant Fish is responsible for the fruit fad, for she recently had her table embellished with little imitation apple trees in full bloom, their bases banked with tiny red apples. The fruit also was attached to the branches of the trees here and there. Fruit trees, with both fruit and blossoms, might suggest a mixing of the seasons, but Mrs. Fish is privileged to follow her artistic bent.

There are stars so distant that a flying machine moving at the rate of 500 miles an hour would require 500,000,000 years to reach them.

NEARLY FORTY KILLED

MANY OTHERS INJURED BY AN
EXPLOSION IN A COAL MINE
IN OLD MEXICO.

DEATH LIST MAY INCREASE

LARGE NUMBER OF MEN ARE SUP-
POSED TO BE ENTOMBED
IN THE MINE.

Monterey, Mex., Feb. 19.—A dispatch to the News from Las Esperanzas, Coahuilla, says that thirty-nine men are known to be dead and twelve injured as a result of an explosion of gas in the coal mine at that place. The list of dead and injured may be extended to over 100, as that number of men are believed to have been in the mine at the time of the accident.

The explosion at Las Esperanzas occurred at 7 p. m. in the Conquista mine No. 3. Thirty dead bodies have been taken out of the wreck and it is estimated that seventy-five more are yet in the mine.

Las Esperanzas is located on the line of the International railway about seventy-five miles from Eagle Pass, Tex. It is the principal coaling center in Mexico and many men, including a large number of Japanese, are employed in the mines there.

The explosion is thought to have been caused by gas which ignited from a defective lamp carried by one of the miners. The accident is the most serious that has occurred in the district since the mine disaster which occurred in the Barratorna mines in this district a year ago, in which nearly 100 lives were lost.

Conditions are in such a chaotic state that reliable information as to the number of dead is not at present available.

FOUR INVESTIGATIONS.

Being Made Into Wreck on the New York Central.

New York, Feb. 19.—Four distinct investigations into the wreck of the Brewster express on the New York Central railroad Saturday are in progress and resolutions have been introduced into the legislature for a legislative investigation. One of the investigations under way is by the direction of the coroner, a second was made by the New York state railroad commission, a third by the district attorney's office of New York county and the fourth by the railroad.

Police lists show twenty-two dead as a result of the wreck, with a possibility that four or five others may die in hospitals or at their homes in this city or White Plains. It is expected that the final death list will not exceed twenty-five. Most of the injured are doing well, about a dozen remaining under treatment in the hospitals in the Bronx.

Coroner Schwanback, after taking the evidence of passengers and one railroad official in his court, conducted his jury to the scene of the disaster and there went over the ground with them and with several witnesses.

The state railroad commission went over the scene of the wreck accompanied by several railroad officials. No announcement was made, but it is said that the commissioners are inclined to the belief that the accident was due to a defect in the motors of one of the cars. It was intimated, though not officially, that the wreck was not due either to defective rails or the too great speed of the train. It was also determined, it is said, that the motor cars also left the track.

TENEMENT FIRE IN NEW YORK.

Two Children Probably Fatally Burned and Several Persons Hurt.

New York, Feb. 19.—In a tenement house fire at 15 Clinton street at night two children were probably fatally burned, one woman threw herself from a fourth floor fire escape into an arway and will die and a number of other persons were seriously hurt.

The fire started from the ignition of gas in the basement. The flames spread rapidly throughout the five floors of the house.

Most of the occupants of the building escaped safely but some in the rear tenements were caught and many were rescued by the police. Mrs. Lena Greenberg leaped from a fire escape on the fourth floor.

SALARY OF GIFFORD PINCHOT.

Senate Gives It a Boost of Fifteen Hundred Dollars.

Washington, Feb. 19.—As the result of more than five hours consideration of the agricultural appropriation bill, the senate increased from \$3,500 to \$5,000 the salary of Gifford Pinchot, chief of the bureau of forestry. The debate was devoted mostly to the methods of administration and general

THE DULUTH-SUPERIOR LIMITED

CHICAGO, DULUTH

Enroute to Chicago Feb. 18, 1907.

To Our Patrons:

We are not seeking to make a personal column of this space but want to merely insure you that we are still looking to your interests. A number of days will be "strenuously" given to the selecting of materials and garments for the coming season. Nothing will be overlooked that will make this seasons showing at our store the best that we have yet attempted. If it is new you will find it at our store.

If you will follow these letters for a few days you will profit by our observations.

Cordially,

J. A. Michael

policy of the forest service and at times broadened to include the public land question generally. Practically no progress was made on the agricultural bill.

City Again Inundated.

Freemont, Neb., Feb. 19.—Water broke through the dyke southwest of Freemont in the morning and the city is again inundated south of the railway tracks. Families are moving out in boats. A relief fund has been started.

FRENCH CABINET CRISIS.

Indications Are That It Has Been Averted.

Paris, Feb. 19.—The threatened cabinet crisis apparently has been avoided when the tension was almost at the breaking point by the reaching of an agreement between Premier Clemenceau and Minister of Education Briand. Beyond the fact that the ministry will present an unbroken front to parliament nothing is known of the nature of this compromise between the premier and the minister of education, although everything indicates that the minister of education has prevailed over his chief. The good offices of President Fallieres undoubtedly played an important role in preventing an open rupture. Notwithstanding the assurances that the ministerial differences have been patched up the session of the chamber of deputies is likely to be a stormy one and may bring forth sensational developments.

HUGHES CONDUCTS INQUIRY.

Quizzes Insurance Superintendent of New York State.

Albany, N. Y., Feb. 19.—State Superintendent of Insurance Otto Kelsey was subjected by Governor Hughes to one of the most extraordinary inquiries ever held in the executive chamber. He frankly admitted his utter failure to correct any of the evils revealed by the investigation of the life insurance companies by the Armstrong committee, of which the governor was counsel.

For nearly three hours Kelsey, pale and agitated, was subjected to the most searching quiz by the governor. With the incisiveness of a determined cross-examiner, the governor struck straight and true at the superintendent, drew from him the admission that he was incompetent to hold his office. In that he had not even read the report of the Armstrong committee, prepared by Mr. Hughes.

Arsenic Found in Body.

Chicago, Feb. 19.—Sufficient arsenic to cause death was found by Professor Haines, the chemist, in the body of Tillie Vzral. This is the sixth member of the family in whose body arsenic has been found. The coroner's inquest will be held Feb. 21. Herman Belek, a fortune teller, is under arrest in connection with the deaths of members of the Vzral family.

JEWELRY STORE ROBBERED.

Texas Concern Loses Over Fifty Thousand Dollars' Worth of Gems.

Houston, Tex., Feb. 19.—A local jewelry company was robbed of between \$50,000 and \$60,000 worth of loose diamonds and up to a late hour at night no progress toward their recovery had been reported. A stranger entered the store and asked to have in unmounted diamond which he matched in order to have both mounted for earrings.

A box of loose stones was produced by the clerk and they went through them trying to select a similar stone. The stranger did not appear to be satisfied and said he would send his wife around in the afternoon. He left the store and as the clerk supposed, the box of diamonds was returned to the safe. There was occasion to take the box from the safe again in the afternoon and it was then discovered that the box that had been returned had contained only tissue paper instead of the valuable jewels. It was identical in appearance with the box for which it had been substituted, except being a trifle smaller.

FATAL BOILER EXPLOSION.

Two Men Killed and Over a Score Injured.

Blytheville, Ark., Feb. 19.—Two men were killed, two others were fatally injured and twenty were more or less seriously hurt as a result of an explosion of a boiler at the sawmill plant of L. M. Brothers at State Line, Ark., several miles north of here.

As far as can be ascertained the explosion resulted from the letting of cold water into a heated boiler. Those most seriously hurt were brought here for treatment. The dead are: Wallace Brown, Jonesboro, Ark.; James Seapough, Campbell, Mo.

The fatally injured are: C. M. Letts, Tennessee; John Pearson, residence unknown.

The most seriously injured and whose recovery is doubtful are: Allen Moore, R. V. Marshall and Balton Brooks.

TWO AUSTRIANS KILLED.

Four Others Fatally Injured by Explosion of Powder.

Billings, Mont., Feb. 19.—By the explosion of a number of kegs of giant powder two Austrian laborers were blown into eternity and four others were so badly injured that their death is hourly expected. The accident happened at Hathaway Station, about forty miles east of this city.

From reports received here it appears that the men were standing around the powder, and that in some way the powder was ignited. Altogether fourteen kegs exploded.

The injured men were brought to this city. They are unable to speak a word of English and their names have not been learned.

He who restrains not his tongue shall live in trouble.—Brahman Maxim.

THE DAILY DISPATCH.

By INGERSOLL & WIELAND.

Entered as the post-office at Brainerd, Minn., second class matter.

SUBSCRIPTION RATES.
One Month Forty Cents
One Year Strictly in Advance.....Four Dollars

TUESDAY, FEBRUARY 19, 1907.

Weather
Forecast—Generally fair tonight and Wednesday, colder tonight.

THE weather man will please take notice that the beautiful spring weather we are enjoying these days is duly appreciated.

TWELVE thousand box cars could be built for what a battleship like the Dreadnaught cost and Bryan thinks we should have the cars. If we needed one battleship, however, we would need it bad, much more so than a few box cars and it would be much more difficult to get it on the spur of the moment.

THE cigars that King Edward smokes cost from \$1 to \$2.50 each and he is not sparing of the number that he burns. The man with the Missouri meerschaum undoubtedly gets as much satisfaction from his pipe as does the king from his cigars, the tobacco of which is raised on a special plantation, and the cost of one of these cigars would keep the pipe going for two months.

THE Colorado senate was astonished the other morning when the chaplain of that body opened the day's session by thanking God "that we are alive this morning, sober and out of jail." Three good blessings, and if the chaplain of the Colorado senate will keep the members of that body in line on the last two until its close he will have earned his per diem and mileage.

BILLY BRYAN threw some huge bouquets at the country newspaper men on the occasion of his speech before the Minnesota Editorial Association in St. Paul last week. The country weekly, in William's eyes, is the whole thing. We've always known that, but to hear a man who owns and controls a metropolitan newspaper with a national circulation tell you so makes one rather swell out with pride. Bryan is a good jollier, anyhow.

THE commercial club at Glenburn, N. D., has issued a statement on the fuel shortage in that section and charges that it was wholly due to dealers who desired to take advantage of the low freight rate. The statement charges that the dealers delayed ordering coal in order to get this reduced railroad rate, which became effective early in the winter, thus causing a serious congestion, and when a shortage was apparent they misrepresented the number of orders placed with the coal companies. The statement gives the railroads a boost and the dealers of North Dakota a black eye, in the discussion of the burning issue.

LOCAL NEWS NOTES.

M. J. Reis went to the twin cities today to buy goods.

Franklin W. Merritt, of St. Paul, was in the city today.

Roger Wallace, of Atkinson, Minn., was in the city today.

California wines at the Coates Liquor Co. 21616

Pat Welsh is down from near Pequot where he has a lumber camp.

Fred Forsberg, of 503 Pine St. N. E., is in the N. P. sanitarium, suffering from pleurisy.

If your sewing machine needs repairing or cleaning leave your order at Orne's store, 722 Laurel street. 21712

Mrs. A. J. Morton, of St. Paul, returned home today after being here to attend the Morton-Swartz wedding.

The funeral of Fred B. Small occurred this afternoon at the Episcopal church, interment being in Evergreen cemetery.

California wine sauterne at the Coates Liquor Co. 22116

Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

Do not forget that M. J. Reis has reopened his dry goods store at 716 Front St. It is the place for bargains. 11

TELEPHONE TO VOLCANO.

Hawaiian Hotel Keeper's Plan to Hear Voice of Kilauea.

Song writers have talked of telephoning to heaven, and fiction writers have sought to make use of the telephone in other plots, but none has thus far been so bold as to suggest telephoning to the infernal fires of the world's most gigantic active volcano, writes a Honolulu correspondent of the New York Herald. But this is the daring project that has been undertaken by George Lyceurgus, the manager of the Volcano House, on the island of Hawaii. He is having a telephone line strung from the Kilauea Volcano House down into the mighty crater of Kilauea, across the floor of this wonderful place to the very brink of Halemaumau, the pit of fire, where the flames and smoke and steam and fiery lava of Mne. Pele's dwelling place are constantly in activity. The idea is to have the telephone strung from the Volcano House to the edge of the pit of fire, a distance of between two and three miles, so that constant communication between the outside world and the dwelling place of Mne. Pele, the Hawaiian goddess of fire, can be maintained.

Scores of people have returned to Honolulu with interesting stories of their experience at the lava flow on the island, but without exception the most original experience related was that by F. W. Klebahn and E. M. Campbell, two prominent business men of this city. They visited the flow at a point about 5,000 feet above sea level. They made the mistake of not providing themselves with warm clothing and heavy blankets. But when they were invited to occupy a part of a tent near the flow they gladly accepted.

But the tent afforded little resistance to the chill of the mountain air. Neither man seemed able to get warm, and for hours they lay in actual misery from the cold. Finally Klebahn decided upon a very novel method of overcoming the lack of heat generating garments by making the lava flow itself supply the warmth. The couple went out to the flow, which was not far distant, and proceeded to lie down on top of the flow and there to try to go to sleep. The top of the flow proved but a hard bed with the multitude of cokedlike clinkers of a lava. But it was warm. Underneath this outer covering of a-a lava was an inner stream of pahoehoe lava, a shot molten mass of fluid that gave forth heat in quantity to have satisfied the coldest blooded person.

This very novel place of slumber did not travel quite so fast as a folding bed, but it kept moving steadily and irresistibly toward the sea, for when the pair awoke in the bed at daybreak they found that the lava had moved fully fifty feet toward the ocean during the time of their slumber, leaving their clothes hanging on a tree behind them.

Future of Brazil.
If Brazil continues calm and does not commit financial indiscretions which may frighten away European capital, of which it has need, it will assuredly have a great future, says L'Economiste Francais. Almost everything that is necessary to the food, clothing and needs of man may be produced on its immense and varied territory.

OPENED ON WEDNESDAY

The Y. M. C. A. Will be Formally Opened After Being Closed for Several Weeks for Repairs

After being closed for several weeks for a general renovating and refurnishing the Y. M. C. A. building will be opened for the enrollment of members Wednesday night. The building committee regret very much, that owing to unavoidable delays some parts of the building will not be in a completed condition, but every feature that has been provided will be installed as rapidly as possible.

As soon as everything is completed it is planned to have a public reception that the people of Brainerd may see that the association is equipped to do its work in a modern, up-to-date manner.

For the purpose of starting the membership canvass with a rush a prize membership contest has been arranged. A \$50 watch will be given to the member securing the largest number of new members before April 1st. The second prize a \$40 watch and a \$25 suit or overcoat for the third prize. The watches are fully warranted by Mr. C. L. Burnett, the jeweler and the suit or overcoat by Mr. H. W. Linnemann. As a further inducement, one of Carlson's \$3 Tiger hats will be given to each contestant securing two or more members and not securing one of the other prizes. Six hundred members for the first year will be the aim.

Every man and boy over 16 years of age in Brainerd is invited to become a member, and the fee of \$5 per year can be paid in two installments if so desired.

Neighbors got Fooled

"I was literally coughing myself to death, and had become too weak to leave my bed; and neighbors predicted that I would never leave it alive; but they got fooled, for thanks be to God, I was induced to try Dr. King's New Discovery. It took just four dollar bottles to completely cure the cough and restore me to good sound health," writes Mrs. Eva Uncepher, of Grovetown, Stark Co., Ind. This King of cough and cold cures, and healer of throat and lungs, is guaranteed by H. P. Dunn & Co., Brainerd, Minn., druggist. 50c and \$1.00. Trial bottle free.

A PLEASANT SURPRISE

The Ladies' Auxiliary, A. O. H. Visited Mrs. J. M. Quinn Saturday Evening Last

A most pleasant evening occurred at the home of Mrs. J. M. Quinn last Saturday evening, February 15th, when 60 members of the Ladies' Auxiliary A. O. H., gathered at the home of Mrs. P. D. O'Brien and proceeded to the home of Mrs. Quinn, the retiring president of the society. Mrs. Quinn was very much surprised and at first somewhat alarmed at such a large gathering of the members but they only came to spend the evening with her. The ladies had arranged a very interesting program, comprised of vocal and instrumental music. After the program the ladies served a delicious lunch. Before leaving for their homes the ladies presented Mrs. Quinn with a set of teaspoons and a beautiful pin with the initials of the order engraved upon them. Mrs. Quinn has been presiding officer of the division for the past three years. She has done a great deal for the order, was always desirous of having peace and harmony prevail among the members, was loyal to the order, true to her friends and just to all. Her kind and retiring disposition won her the respect of the order.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood.

HOUSES OF PORCELAIN.

Sheets of Glazed and Decorated China to Replace Brick and Stone.

The dweller in glass houses may be a more or less fabulous idea, but the dweller in a china house will soon be a common personage, says a London cable dispatch to the New York American. The home of the future will be built of porcelain. It is now possible to build cheap, simple and cleanly houses with sheets of porcelain instead of bricks and slate and concrete and to dispense with paint, wall paper and spring cleaning.

The porcelain used for building this Utopian house is produced by a new method in sheets about an inch thick, but quite as strong as a brick wall. It is made of a mixture of Cornish clay and French flint bowlders in certain proportions.

The raw material is worked into a liquid state, then pressed and rolled into sheets. When dry the sheets can be decorated in colors by hand or by printing process. The final process is glazing and firing used in the ordinary potter's trade. Glazed on both sides, the porcelain walls reduce construction and interior decoration to simplicity itself. The outside and inside walls of the house have decorative schemes burned into them indelibly before the house is put together.

Cleanliness is one of the greatest merits of the porcelain house. Water and wash leather only are needed to replace the annual household terror known as "spring cleaning."

MAKES IT A FELONY

HOUSE MEASURE FIXES PENALTY FOR HUSBANDS GUILTY OF NON-SUPPORT.

PROVIDES THAT THEY MAY BE SENT TO PRISON FOR TERM OF THREE YEARS.

St. Paul, Feb. 19.—A three-year prison sentence will free husbands who do not support their wives and children if a bill introduced in the house by C. B. Miller of Duluth (by request), is passed. His only recourse will be the giving of a bond to support his family.

The bill provides that any man, who, without lawful excuse fails to furnish proper food, shelter, clothing or medical attendance to his wife or to any child under fifteen, shall, on conviction, be found guilty of felony and be punished by imprisonment for not exceeding three years.

Sentence may be suspended for a term of three months or longer, at the discretion of the court, if the husband will give bond to support the wife or children. The wife, child, or the butcher, grocer, baker or any one else furnishing the necessary food, shelter, clothing or medical attendance, may sue upon the bond for breach of any of the conditions of the bond. Of if the husband fails to live up to the conditions of the bond he may be brought before the court again and the sentence ordered served.

In order to be "pure food" it not only will be necessary that food be free from coal tar dyes, preservatives and adulterants and properly labeled, but, if a bill introduced in the house by J. Gates of Kenyon is passed, it must be made of pure and fresh ingredients. His bill makes it unlawful for any person to deal in or sell for use as food any filthy, decomposed, diseased, tainted, or otherwise unwholesome meat, flesh, poultry, fowl, fish, eggs, fruit, vegetables, milk, cream or dairy products, either in their natural state or manufactured, mixed or prepared.

Will Become State Property.

Logs and other timber submerged in the lakes and streams of Minnesota will become the property of the state unless they are removed before May next year under a bill introduced in the house by J. G. Lennon of Minneapolis.

More stringent regulations for the prevention of the importation of diseased stock into the state are provided in a bill introduced in the house by C. W. Glatfelter of Waterville. The bill makes it unlawful for any transportation company to bring horses, mules, cattle, sheep or swine into the state for working, breeding, feeding or dairy purposes unless they are found free from any contagious or infectious disease.

A gross earnings tax of 4 per cent on the entire receipts of express companies in Minnesota is provided in a bill introduced in the house by Swan Nelson of Minneapolis. This percentage is to be paid upon all business in the state and upon a proportion of interstate based on mileage. At present the express companies pay a 6 per cent tax upon their net receipts, the amount left after paying the railroad companies for use of the cars.

By a slight amendment, the house altered entirely the effect of the bill introduced by W. F. Dower of Wadena to prevent judges or clerks of probate from giving advice in cases before the court. The amended bill restores the provision that existed before the enactment of the new code.

The house passed the Ramsey and Hennepin county bond issue bills. The bills provide for \$800,000 bonds for high schools and \$300,000 for graded schools.

More Land for the University.

Authority is given the board of regents of the state university to acquire by purchase, gift or condemnation additional lands for the university and to issue certificates of indebtedness for this purpose in a bill introduced by Senator J. T. Elwell of Minneapolis. The bill also provides for the levying of a tax for the payment of the certificates. The bill authorizes the regents to acquire such lands for the campus and other purposes, together with the buildings thereon, as they may deem necessary, and thereafter to deal with the land as they shall determine the needs of the university require.

The establishment of a standard of measures and tests for milk and cream is provided for in a bill introduced by Senator S. A. Nelson of Lanesboro. The bill provides that the standard pipette for the measurement of milk shall have a capacity of 17.6 cubic centimeters. All cream shall be tested by weight and not by measurement, and the standard quantity for any test shall be a sample weighing eighteen grammes. The bill is intended to establish a uniform standard of test and measurement and to do away with the multiplicity of tests which are now in use.

Senator George R. Laybourn of Duluth, chairman of the insurance committee of the senate, presented a favorable report on the bill presented by Senator V. B. Seward of Marshall, which imposes on foreign insurance companies doing business in this state the same conditions and requirements imposed on Minnesota companies doing business in the state wherein such foreign companies have their home office.

INVITATION
To the great congress of New Spring Dress Goods and Wash Fabrics for 1907 will be open for your admiration and approval on Wednesday, Feb. 20th, from 4 till 10 o'clock in the evening.
Beautiful sheer fabrics, many of which are exclusive with us—materials and designs which must come under your personal observation to fully appreciate their captivating loveliness, it being almost impossible to convey on paper a proper conception of the delicate tints and harmonious color combinations which are their leading characteristics. There is not an undesirable piece in the whole lot and choice will depend upon individual taste. It is unnecessary to expatiate further upon the merits of these fabrics. Most women know from part experience, the qualities and large assortment to be obtained at Cale's, and the low prices will appeal with eloquent force to their better judgment.
This invitation is extended to everybody to come and feast their eyes on our magnificent showing of new Spring Goods.
L. J. Cale's Department Store.

GOLDEN WEDDING

Parents of C. B. Rowley Celebrate Their Fiftieth Wedding Anniversary at Dakota City, Iowa

Dakota City News in Humboldt [Iowa] Independent: Mr. and Mrs. W. C. Rowley very appropriately celebrated their fiftieth anniversary, February the 5th, 1907. Their children gathered to celebrate the occasion by a family reunion. They were surprised by the W. R. C. and W. C. T. U. ladies in the afternoon. The W. R. C. ladies presented them with a gold pin and the W. C. T. U. ladies presented them with a gold souvenir spoon. In the evening the relatives gathered and spent a very enjoyable evening and presented them with fifty dollars in gold. Mrs. J. P. Foote, a life friend of the family, gave them a beautiful Haviland china plate which was appropriately used in presenting the gold pieces. The out of town guests were Miss Marie Cutler, of Osage, Iowa; Mr. and Mrs. F. B. Rowley, of Ft. Dodge; Mr. Laville Rowley, of Manson, Iowa; and Mr. and Mrs. C. B. Rowley and daughter Ione, of Brainerd, Minnesota.

Rising From the Grave

A prominent manufacturer, Wm. A. Fertilizer, of Lucama, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at H. P. Dunn & Co.'s, druggist, Brainerd, Minn. Price only 50c.

BRUNS the optometrist, who fits glasses correctly, will examine eyes free all day tomorrow and Thursday, at Hotel Ransford. Come as early as you can, for noon if possible.

Itching, torturing skin eruptions, disfigure, annoy, drive one wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drugstore.

The DISPATCH will be delivered at our door for 40 cents per month.

Desperate Coughs Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral for these severe cases. We have no secrets! We publish the formula of our preparations. J. C. Ayer & Co., Lowell, Mass.

FELIX GRAHAM IS ALDERMAN

Elected to Succeed F. C. Larri-son who Declined Re-election in Fourth Ward

ALL DOGS MUST BE LICENSED

Ryan & Johnson Paid Full Amount Due on Sewers put in by Them Last Fall

The city council had a very lively session Monday evening, there being several rather interesting passages at arms. The most important business done was the electing of a successor to F. C. Larri-son, who declined a re-election at the hands of the council.

A strong dog ordinance was also passed under suspension of the rules. The superintendent of the electric light plant reported that the shafting and bearings at the power house were in bad shape but that by some minor repairs they could be made to last for some time yet.

There was a snag struck when the council hit the dog ordinance proposed by the health officer, but the ordinance was finally passed under a suspension of the rules. By the provisions of the ordinance all dogs running at large must be muzzled so that they cannot bite or the police are empowered to shoot them. Anyone attempting to prevent the enforcement of the ordinance is made liable to a fine of not less than \$5 or more than \$20. There was some opposition to passing the ordinance under a suspension of the rules, some of the council believing that there should be a couple of weeks notice given in order that the public might be able to obtain licenses. It was pointed out that the dogs could be tied up pending the securing of muzzles. Alderman Twohey would muzzle some of the inhabitants instead of the dogs and expressed doubt as to the police shooting the dogs. He said he had a bad dog which bit him and he asked a police officer to shoot the dog and the policeman replied that he would rather shoot him than the dog. On its passage the president and Alderman Twohey voted no, the rest voting yes.

C. H. Heath appeared before the council asking a refund of \$25 as license paid as a dealer in second hand goods. He declared that E. J. Rhone and Mr. Kaatz were following the same business and that when he asked a warrant of Clerk Low for their arrest for having no licenses it was refused. He thought he should have a refund or that the others should pay. The matter was referred to the proper committee for consideration.

Attorney M. E. Ryan appeared for the firm of Ryan & Johnson, sewer contractors, and asked that their bill for the lateral sewers be allowed. Mr. Ryan showed a release from St. Francis church releasing the city and contractors from any further liability as to the damage done the building and further contended that the \$5 per day forfeiture for non-completion within specified time was not legal and that it was caused by the inability of the manufacturers of sewer pipe to get cars. Attorney Polk said that the forfeiture was legal, but that the city need not exact it if they did not wish. President Johnson was in favor of holding the contractors to the letter as was Mr. Twohey, both of whom strongly criticized the methods by which the contract was obtained.

Several sharp passages at arms occurred between Mr. Ryan, of the firm of Ryan & Johnson, and President Johnson and Alderman Twohey. The bills were finally allowed at \$1826.25, on lateral sewer J, less \$50 for the possible repairs to the streets, etc., this spring and on lateral K at \$3,881 less \$100 held back for a similar purpose.

Mayor Wise nominated Mrs. L. M. Follett and Mrs. C. M. Patek to serve on the library board and the nominations were confirmed by unanimous vote.

A communication from F. C. Larri-son was read thanking the council for the honor done and reiterating the finality of his resignation. The names of Felix Graham, Josiah Thayer and T. E. Smith were presented as candidates for the position and the formal ballot gave Graham 5, Thayer 1, Smith 2. Graham was thereupon declared elected.

Alderman Fogelstrom reported that there was a culvert near the Harrison school stopped up and as a result children were compelled to wade half way to their knees to get to school. Alderman Twohey reported the same state of affairs from the Third ward. After some discussion the street committee was empowered to instruct the street commissioner to take what action it deemed best in the matter of opening up drains, etc.

Alderman Bouck took exception to the ministerial association taking action looking toward the enforcement of the law and stated that he met them before the election and urged that Mr. Angel's name be kept out of the campaign that Mr. Ousdahl might be elected and the laws enforced, and he thought they should now abide by the decision for the next two years without criticism the officials. He also criticised the papers for publishing the petition. Alderman Twohey thought that the council should take no notice of complaints or petitions unless legal proceedings were begun.

The chief of the fire department reported the need of a new light wagon and the fire committee was authorized to purchase one.

Hunting for Trouble

"I've lived in California 20 years, and am still hunting for trouble in the way of burns, sores, wounds, boils, cuts, sprains, or a case of piles that Bucklen's Arnica Salve won't quickly cure," writes Charles Walters, of Alleghany, Sierra Co. No use hunting, Mr. Walters, it cures every case. Guaranteed H. P. Dunn & Co.'s drug store, Brainerd, Minn. 25c.

NO NOTICE HERE

Local Board of Health has Received no Notice as to Dogs Being Muzzled—Is Acting Independently

Dr. Thabes, health officer, states that while other communities have received notice from the state board of health that the local board should pass a resolution to compel all dogs to be muzzled or tied up on pain of having them shot. He deemed it wise, however, that some action should be taken and so went before the council and had the ordinance passed. Dr. Thabes believes that it is better to take time by the forelock and have the ordinance passed before there are any signs of rabies in this section and so avoid the danger of the scare. There was one dog killed Saturday night which was reported by some to have had rabies, but from all he can learn Dr. Thabes expresses the opinion that the dog was suffering from poison as his symptoms would so indicate. There is no need to fear any rabies but the opinion seemed to be general that any ordinance that would thin out a number of the vagrant curs of the city would be a good thing.

* After a heavy meal, take a couple of Doan's Regulents, and give your stomach, liver and bowels the help they will need. Regulents bring easy, regular passages of the bowels.

An App to Dochevors.

[In at least six states revenue bills aimed at hachelvors are already in sight.—From New York World Editorial.] Ho, men of merit, ye who stand Alone in this united land, This broad, free land, supposed to be The heart and home of liberty— Now is the time for you to get Together as one man and let The tyrants see that you are bound By freedom's right to hold your ground. You are not slaves nor are you meant To meet the tyrants' ill intent To make you serve, to make you wear The fetters of the so called law, When you are born to higher walks Than cooks and kids and curtain talks. Yours is a nobler sphere; you stand For singleness of purpose, and You are and must forever be The symbol of true liberty. What means the Declaration if By law you are given such a biff As knocks your purpose all to smash And cuts in two your hard earned cash? Stand fast, therefore; be not afraid Of matron, widow or of maid And show them plainly that you scorn The bonds they claim to do you adorn All men, and it is up to you To don these ornaments d. q. Down with the tyrants! Show them now No single freedom o'er will bow To such a yoke! Fling back the law To every warring female jaw! Die if you must, but not as slaves! Write freedom o'er your lonely graves! —W. J. Lampton in New York World.

VERY PLEASANT HOME WEDDING

Miss Jessie Swartz and George A. Morton United in Matrimony Monday Evening

AT THE HOME OF THE BRIDE

Happy Couple Left on the Midnight Train for St. Paul Where They Will Reside

One of the pleasantest weddings that has taken place in Brainerd was that which occurred Monday evening, February 18, at the home of Mr. and Mrs. M. K. Swartz, Bluff avenue North, when their daughter Jessie was united in matrimony to Geo. A. Morton, of St. Paul.

The rooms were prettily decorated in smilax and cut flowers, red and green being the predominating colors.

The ceremony was performed at 8:30 by Rev. E. A. Allin, the wedding party entering the parlor to the strains of Mendelssohn's wedding march played by Miss Catherine Morton, of Little Falls, a cousin of the groom. The bride, becomingly gowned in white silk, wearing white lilies of the valley in her hair and carrying white carnations, was given away by her father, Mr. K. Swartz, and was supported by her sister, Miss Mildred Swartz, who wore blue mull and by Miss Lucile Benjamin, who wore white mull over pink silk. There was no groomsmen. Mr. Morton was in conventional black.

After the ceremony there was a very elaborate wedding supper partaken of by the guests who numbered nearly one hundred. A number of the guests accompanied the happy couple to the midnight train on which they left for St. Paul where they will make their future home. Among the out of town guests were Mrs. A. J. Morton, of St. Paul, the mother of the groom, Miss Catherine Morton, of Little Falls, a cousin of the groom and Miss Grace Woolman, of Two Harbors.

The young couple were the recipients of a large number of very handsome and valuable presents from their many friends.

Everybody's friend—Dr. Thomas' Electric Oil. Cures toothache, earache, sore throat. Heals cuts, bruises, scalds. Stops any pain.

BOUGHT McCULLOUGH HOME

Fred S. Parker has Purchased Elegant Home of E. B. McCullough on North Fourth Street

Fred S. Parker has closed a deal whereby he becomes the owner of the handsome E. B. McCullough home erected on Fourth street North a couple of years ago. The house which is one of the finest homes in the city is modern in every respect, is located on one of the best residence streets in Brainerd, convenient to the business portion, and is in every way an ideal home. Mr. Parker takes possession immediately and will move his family in a very short time from the home they have long occupied on Kindred street. This latter property is offered for sale and would be a convenient home for some one employed in the shops.

It's a good old world after all; If you have no friends or money, In the river you can fall; Marriages are quite common and, More people there would be, Provided you take Rocky Mountain Tea. H. P. Dunn & Co.

JAPAN IN LEAD OF NATIONS.

Nipponites Ahead in Civilization and Progress, Says Professor Starr.

We're not so much after all, for Japan leads the world in civilization and progress. The Japanese were better off sixty years ago than either themselves or the Americans are today.

This statement was made recently by Professor Frederick Starr of the University of Chicago in a lecture to his anthropology students, says the Chicago Record-Herald. The professor declared that the introduction of innovations into America and Japan has checked their progress, but that Japan is still in a position ahead of any other nation.

"It is not true that the Anglo-Saxons lead the world," he said. "Japan has the top place. Progress is that which tends to the general diffusion of happiness, and the introduction of things from the outside in an attempt to get ahead is a mistake.

"There is nothing more horrible in the world than the slums of our cities and the slums of cities in Europe. There is not a condition in the wildest and worst part of Africa that will compare with the condition of the white crowds. China's crowded population is much better off. There are many very poor Chinese, but they are much better off than the very poor Americans.

"It is also a mistake to think that immigration will hurt America. The exclusion laws are a mistake. Neither the Italians nor the Chinese are dangerous elements. The only government that has continued uninterrupted for 4,000 years is the Chinese government."

A. E. Moberg
218 South Seventh Street.

Rain or Shine Coats Rubberized

and shown for the first time in this city. They are positively the newest creation in ladies' wear. We show the new satin auto coat rubberized in all colors made double breasted with combination inlaid collar and cuffs. Guaranteed spot and water proof.

RAILROAD NEWS

Items of Interest Regarding Railroads and Railroad Employees

Bemidji, Minn., Feb. 18.—J. P. Dougherty, contractor for the M. & I. extension from Big Falls to International Falls states that the Littlefork crossing will be located about a mile and a half below the village of Littlefork.

The village is located in a valley and the grade to this entrance from the southwest would be very great on account of a high ridge for a distance of about two miles. This heavy grade will be avoided by using the line chosen and at the same time the depot can be located at a point across the river and a little below the village. This arrangement has been decided upon by a careful study of the situation by both the townspeople of Littlefork and the railroad officials. By the construction of a wagon bridge, preliminary steps for which have already been taken, at the most convenient point, the business section of the town will be within easy reach of the depot, and there will be no need of moving the town to the point where the railroad crosses the river.

The Northern Pacific road will erect a bridge across Lawyer canon, on Camas prairie, near Cul De Sac, Idaho, as soon as the contract can be awarded and the work commenced. The bridge is to be 1,300 feet long, 275 high at the highest point, will be built entirely of steel with concrete piers, and will cost \$225,000. Approximately 2,500 tons of steel will be used in the construction.

"WHISKY" COLD CURES

Danger of Using Alcoholic Mixtures or Coal Tar Tablets

The most dangerous thing that one can do when affected with a cough or cold is to use a medicine that contains whisky or a tablet that is made of some coal tar product. Putting aside all moral objections to filling up with whisky or drugs because one has a cold, the injurious physical effect should be sufficient to keep one from using these strong medicines.

The most sensible as well as the only scientific way to treat a cough or cold is by inhaling medication that will kill the germs and give relief to the irritated mucous membrane in the nose, throat and lungs.

Among the few remedies that are used in this way, Hyomei stands pre-eminent. It is breathed through a neat pocket inhaler that comes with every outfit, and the first breath of its healing air relieves the irritation, and its continued use soon effects a thorough cure.

The best people in Brainerd always keep Hyomei at hand in the winter months, and at the first symptoms of a cold or bronchial trouble, use the remedy and prevent serious and lasting illness. If you have any doubts as to the effects of Hyomei in curing coughs, colds and all bronchial troubles, the guarantee H. P. Dunn & Co. gives with every outfit should convince you of its curative powers. A Hyomei outfit costs \$1 and if it does not give satisfaction, H. P. Dunn & Co. will return your money.

Extra bottles of Hyomei, if needed, can be obtained for 50c, but the complete outfit is usually enough to cure several colds.

AMUSEMENTS

Beach & Bowers Good Show

"Beach & Bowers Minstrels" were at the Frazer theater Saturday evening, and gave an entertainment that was somewhat of a surprise to many who saw it. Though the troupe was not heralded with the pomp that preceded the appearance of the Hi Henry Minstrels a few weeks ago, the fun-making was much better than that of the Henry troupe.

It was one of the brightest, snappiest, most entertaining shows that has visited the city, and will be warmly welcomed in the future.

"Beach & Bowers Minstrels" will give one performance here at the opera house tomorrow night. Seats on sale at Dunn's drug store. Prices 75, 50 and 25c.

It's the highest standard of quality, a natural tonic, cleanses your system, reddens the cheeks, brightens the eyes, gives flavor to all you eat. Hollister's Rocky Mountain Tea will do this for you. 35 cents, tea or tablets. H. P. Dunn & Co.

About Leather Postal Cards

A newspaper item that has been working over time going the rounds of the press asserts that after March 1, leather post cards will be barred from the mail. This is believed to be an error. No official information has been received at the local postoffice to this effect. As a matter of fact leather "postcards" are not postcards at all and never have been handled as such by the postal authorities. The leather cards are transported as merchandise at regular merchandise rates, when they bear no written message except the address and the name and address of sender. As such they may be mailed at one cent each. When a message is written on them they must be paid for at first class letter rates or in other words must bear a two cent stamp.

A tissue builder, reconstructor, builds up waste force, makes strong nerves and muscle. You will realize after taking Hollister's Rocky Mountain Tea what a wonderful benefit it will do you, 35 cents, tea or tablets. H. P. Dunn & Co.

Think what good baking powder means in cooking. Then profit by the reputation of Hunt's Perfect—made in Minneapolis.

A Valuable Lesson

"Six years ago I learned a valuable lesson," writes John Pleasant, of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at H. P. Dunn & Co.'s druggist, Brainerd, Minn. 25c.

A Human Dreadnought.

What seems to be a veritable flesh and blood Dreadnought was recently advertised in one of the London morning papers as follows:

Young gentleman, first class public school education, well trained, skilful chemist and physicist, careful, intrepid, quick, self reliant, is prepared to fill any dangerous position; absolutely no fear of death; the more danger the better.

It is Britain's moist climate that makes British linen the finest of all. Moisture is needed to spin fine thread.

ROYAL BAKING POWDER

Made from pure grape cream of tartar, and absolutely free from lime, alum and ammonia.

ROYAL BAKING POWDER CO., NEW YORK.

CHIEF AMERICAN PERIL

Ruthless Extravagance of All Classes, Says Alfred Mosely.

THINGS BECOMING SLIPSHOD.

Englishman Studying Our Schools Sees Signs of Serious Danger if Extravagance Is Unchecked—Inefficiency and Corruption Threatened—Reaction Might Lead to Disaster.

Alfred Mosely has written a long letter to the London Times on the results of his recent visit to the United States in connection with the visit of British schoolteachers. He warmly eulogizes the American educational system on the lines of his previous utterances. He says:

"The material advantage of the American system is manifesting itself by the great prosperity of the country and by the ceaseless flow of inquiries at the doors of every university for the services of students as they graduate."

Dealing with the prosperity of the country, he says that perhaps the greatest danger and change noticeable in this connection is the high standard of living if not the ruthless extravagance of all classes in America. "What were luxuries yesterday," he says, "are considered necessities today. Where this is to end it is difficult to foresee, and herein lies the hidden trouble of the future."

"At the present moment everything is keyed up to so high a pitch that a reaction would probably spell disaster, and yet things cannot go on indefinitely on the present lines. I am bound to say, however, that I see no reaction so far. Developments in the United States are so great now and on so huge a scale that she can practically use the spare capital of the world and yet cry for more."

"The enormous demand for money in the United States is causing a seriously high rate of interest in Europe, and we here are not in a position with our close cut profits to pay it for legitimate trading purposes at the present ruling rates of money."

"I see signs of serious danger in the future if the ruthless extravagance of the people is to continue unchecked, and American prosperity is leading to even worse features than extravagance—namely, inefficiency and corruption. "In bygone years one was impressed with the thorough way in which everything was done and every detail thought out, but the same is not true today. On the contrary, there are signs that everything is becoming slipshod. Work is inefficiently performed and badly finished. Everything is overdone and overcrowded."

"Above all, everybody appears in too great a hurry. So that in the race for success and wealth many of the former good characteristics of the country are disappearing."

Mr. Mosely thinks that finance in the United States is showing signs of unsoundness. He remarks upon the high prices to which all property and securities are being pushed and upon recent exposures of dishonesty where a high standard of honor was looked for. The redeeming feature, he says, is that public opinion is trying to correct the evils. Unfortunately, as bad or worse is going on in London in connection with bubble companies. Mr. Mosely concludes:

"The nations of the world may be growing richer, but unless honest realization of the responsibilities of wealth accompany material progress we will be better without it."

CENTENARY OF ORANGE, N. J.

Proceedings of an Old Town Meeting to Be Re-enacted in Costume.

David L. Pierson, president of the Revolutionary Monument association and the Orange (N. J.) Centennial association, recently gave out a resume of the plans so far laid by the various committees of the two associations for formally celebrating Orange's centenary in June next, says the New York Sun. The celebration will begin on Sunday morning, June 9, and will continue until the following Friday night. The central event will be the unveiling of the monument designed by F. E. Elwell, the sculptor, as a memorial to the men and women of the community who aided in establishing American independence in 1776. The unveiling will be on June 14.

There will be a parade, which will start from the site of the old village green, according to the custom in vogue a hundred years ago. There will be a representation of the old town meeting which was held on April 13, 1807, in front of the church, and the business transacted a hundred years ago will again be enacted. At least 200 persons in costume will take part in this representation.

At night there will be a banquet in the woman's clubhouse in East Orange and a grand display of fireworks. Another feature will be a chorus of 500 voices which will sing the American anthems and hymns. The Rev. Dr. George Lawrence Spinning, the well known South Orange clergyman, will be the poet of the day.

Shoeing the Bridesmaids.

An interesting innovation was made at a recent wedding at Tunbridge Wells, Wales, says the London Mail. In place of the usual gifts of jewelry the bridegroom presented each of the bridesmaids with a pair of dainty shoes mounted with silver, the idea being that there is as much good luck in new shoes as in old boots.

Killed in a Minnesota Quarry.

Red Wing, Minn., Feb. 19.—To meet death about one hour and a half after he commenced work was the sad fate of L. Sigurdson, who was killed at the same quarries back of Barn Bluff in Red Wing operated by L. M. Gray of Minneapolis. Sigurdson arrived in Red Wing late in the afternoon from Minneapolis and was placed on the night shift. He was engaged in hauling dirt at the base of the quarry, when a sharp pointed rock weighing ten pounds fell from above and struck him on the head, crushing his skull to a pulp.

Weighing of Mail.

Washington, Feb. 19.—The regular quadrennial weighing to determine the basis for compensation of railroads for carrying the mails in the states of Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa and Missouri will begin Feb. 20.

Two Women Killed by a Train.

Finleyville, Pa., Feb. 19.—Mrs. Joseph Walrous and Mrs. Helen Ignat were instantly killed by a Baltimore and Ohio express train, one mile west of here. The women stepped off a sidetrack to avoid a freight train and were run down by the express.

The word "Jew," strictly speaking, means a member of the tribe of Judah.

BARS JAP LABORERS

AGREEMENT BY WHICH SCHOOL QUESTION AT SAN FRANCISCO WAS SETTLED.

MAY ATTEND WHITE SCHOOLS

JAPANESE CHILDREN ARE TO BE ADMITTED UNDER CERTAIN RESTRICTIONS.

Washington, Feb. 19.—Japanese children are to be admitted to the white schools of San Francisco under certain restrictions, skilled and unskilled laborers coming from Japan are to be barred from the mainland of the United States and American laborers, skilled and unskilled, are to be excluded from Japan. This is the basis of the agreement between President Roosevelt, Secretary Root, Mayor Schmitz and the San Francisco school board as an adjustment of the anti-Japanese agitation brought about by the segregation of Japanese children in the schools of San Francisco. The agreement means that the schools of San Francisco will be conducted in the same manner as they were before the board of education adopted the resolution last October providing for the segregation of the Japanese except that adult Japanese who are in primary grades must continue to attend the Oriental schools and that Japanese children under sixteen years of age will be admitted to classes with white children of their own ages. While the resolution of the school board as amended reads "children of alien birth," it is freely admitted by Mayor Schmitz and his associates that the resolution will apply only to the Japanese children and that the change in the wording was to make it plain to the Tokio government that no discrimination was intended against Japanese children.

Assistant City Attorney Williams of San Francisco, who has acted as legal adviser to Mayor Schmitz and the board of education since negotiations have been pending in Washington, said:

Made Only One Concession.

"To understand the exact meaning of the statement given out by Mayor Schmitz it will be necessary for the newspaper men to read between the lines. The only concession we have made is to admit Japanese children to the white schools, while in return the administration has brought about the exclusion of Japanese laborers from this country."

It was pointed out that where Japanese children cannot meet the educational requirements special classes will be organized for them in the white schools and also that the clause of the agreement which vests in the principal of the school the discretionary power to reject any applicant for admission to the school is the provision particularly aimed to meet the exclusion of Chinese children.

Mayor Schmitz and his associates have received several hundred telegrams congratulating them on the satisfactory results of their negotiations with the president. Other telegrams were received criticising the mayor and the school board, declaring that the exclusion amendment in the immigration bill as passed by the house of representatives is unsatisfactory to the people of the Pacific coast states.

The central labor union of this city at night gave a reception in honor of Mayor Schmitz and the school board. Mr. Gompers of the American Federation of Labor who presided, paid a high tribute to Mayor Schmitz and declared that in bringing about the exclusion of coolie labor from this country he won a victory for which the American Federation of Labor has been fighting for the past decade.

Mayor Schmitz spoke, but made no reference to the school controversy or to the exclusion of the Japanese from this country.

UNDER SUSPENSION OF RULES.

House Adopts Conference Report on Immigration Bill.

Washington, Feb. 19.—Under suspension of the rules the house adopted

ed the conference report on the immigration bill, although the Democrats generally made a party issue against the passport provision as well as to that requiring increased air space in vessels.

The house refused to suspend the rules and pass the bill recommended by the interstate and foreign commerce commission as a substitute for the so-called La Follette bill limiting employment on railroads to sixteen hours, the Democrats voting solidly against the substitute.

Mr. Overstreet of Indiana asked that general debate terminate on the post-office appropriation bill at 4 o'clock Tuesday afternoon, which was agreed to and at 5:40 p. m. the house adjourned for the day.

SKULL OF MURDERED MAN.

In Evidence in the Trial of Steve Adams in Idaho.

Wallace, Ida., Feb. 19.—The skull of murdered Fred Tyler was in evidence in the trial of Steve Adams. A big bullet hole back of the left ear and another hole on the right side, where it is supposed the ball came out, showed how he met his death, shot from behind.

TRIPLE TRAGEDY IN MISSOURI.

Saloonkeeper Kills Two Men and Is Himself Shot Dead.

Malden, Mo., Feb. 19.—"Doctor" A. L. Brannon, a saloonkeeper, who at night shot and killed Attorney D. B. Cox and Dr. J. W. Beall in the latter's office, was shot and killed himself a few hours later while being removed from the jail at Malden to Kennett for safe keeping. The killing of Brannon was by an unidentified person standing in the shadow of a building near the Malden jail.

The trouble leading up to the killing of Cox and Beall is said to have been over the liquor question. Brannon, who is a member of a well known family in this county, came here several years ago and started to sell liquor near the city limits across the New Madrid county line. He recently erected a distillery, but it was not yet in operation.

Cox was mayor of this city for four terms and was prosecuting attorney of this county for two terms. He was shot through the head and back. Dr. Beall was shot through the head.

Brannon then snapped his revolver at Dr. R. H. Beall, father of the dead Beall, but the weapon was empty. He then proceeded down the street and walked into the arms of City Marshal Barnham, who locked him up in the police station.

Dr. J. W. Beall was a division surgeon for the Cotton Belt railroad and an officer in the Masonic grand lodge of Missouri. He was about thirty years old and married. He was an ardent temperance and local option advocate, and was a close friend of Attorney Cox.

FOREST FIRE RAGING.

Threatens to Devastate Reserve in the Wichita Mountains.

Lawton, Okla., Feb. 19.—A forest fire is raging in the 100,000 acre government forest reserve in the Wichita mountains, ten miles southwest of here, and is threatening to devastate the entire tract. Despite efforts of the supervisor, his assistants and hundreds of citizens from nearby towns the damage already amounts to thousands of dollars to trees and grass and livestock. An appeal to the citizens for additional aid has been made by Forester Morrissey and the military authorities at Fort Sill are in readiness to send soldiers to assist in fighting the flames.

A high wind, which fanned the flames eastward, is beginning to quiet down and if it does not come up again complete devastation may be forestalled.

In the heart of the Wichita forest reserve is situated the national game reserve created last year by act of congress for the propagation of buffalo. A fence costing \$15,000 is now being constructed and the flames are near the tents and material.

SECURITIES LOCATED.

Some of Those Stolen by W. F. Walker Found in New York.

New York, Feb. 19.—Norman T. Bailey of a detective agency here, admitted that \$180,000 worth of the securities stolen by William F. Walker of the savings bank of New Britain, Conn., had been located. He said they had not been recovered. Most of them were negotiable securities, said Mr. Bailey. It is understood that some of the missing securities were not negotiated and that the persons who purchased these from Walker are responsible. There was a report that \$50,000 worth of such securities had been located in the office of a Broad street broker and seized by the detectives.

"We believe Walker to be in New York," Mr. Bailey said. "We are confident we will get him."

BODIES BLOWN TO ATOMS.

Five Men Killed by an Explosion of Dynamite.

London, Ky., Feb. 19.—Five men employed by the Louisville and Nashville railroad while laying a double track at Tunnel No. 6 near Hazel Patch, were killed by the explosion of 100 sticks of dynamite, which they were thawing around a fire. The dead are:

Hugh Sutton, foreman; Frank Boles, Carl Epps, Arthur Jones and Andrew Cleveland.

The last named three are colored. The bodies were blown to atoms, fragments of flesh being found in the tops of nearby trees.

Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and effective striking exception to this painful rule. The confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such famous names as Prof. Finley Ellinger, M. D., of Bennett Medical College, Chicago; Prof. Hale of the same city; Prof. John M. Scudder, M. D., late of Cincinnati, Ohio; Prof. John King, M. D., late of Cincinnati, Ohio; Dr. Grover Cox of New York; Dr. Bartholow of Jefferson Medical College, of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, prostration, anteverision and retroversion and corrects irregularities, cramps, painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a patent nor even a secret medicine, but the "Favorite Prescription" of a regularly educated physician of large experience in the cure of woman's peculiar ailments, who frankly and confidently takes his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for woman's special maladies and sold through druggists, can it be said that the maker is not afraid to deal thus frankly, honestly and honorably, by setting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps to cover mailing only, in cloth binding \$1 stamps. Dr. Pierce's Pellets cure constipation.
